Cloud Transformation
Azure Migration Services

The business challenge

Are you ready to modernise your business and harness the power of the cloud? Moving to Microsoft Azure is a strategic move, but it comes with challenges. Where do you begin? How do you ensure a smooth migration that aligns with your unique needs? At Kerv, we understand the complexities of cloud migration and offer tailored solutions to tackle your business challenges head-on.

With the continual advancement of the cloud, we believe if your cloud environment hasn't changed in three years, we've failed. Which is why we offer strategy workshops, environment design, proof of concepts, or simply training and support. So, if you're ready to migrate to Azure, we're well equipped to help you on your journey.

Why Azure?

Microsoft Azure offers more than just a platform – it's a comprehensive solution that addresses critical business needs:

Overcome cost barriers with a flexible subscription model

Benefit from cutting-edge cybersecurity to protect your devices, data, and people
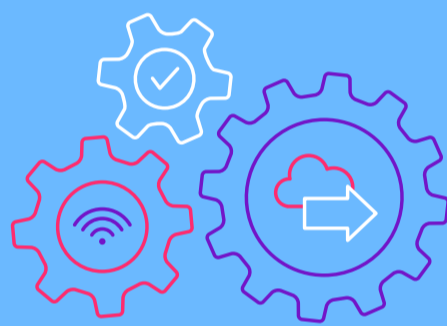

Scale on demand to simplify and optimise your IT infrastructure

Transform your existing Microsoft infrastructure into a PaaS model, streamlining your infrastructure management

How it works

We follow a robust methodology to ensure a smooth migration journey. We also tailor our migration services to suit each organisation, which can include some or all the following steps:

Analysis & Planning
- Conduct assessments of your existing IT setup to understand the current state.
- Facilitate strategic workshops to identify business goals and challenges.
- Perform Azure readiness evaluations to gauge migration readiness.

Design & Architecture
- Leverage Azure Landing Zones for tailored architectural blueprints.
- Define network architecture, security measures, and resource configurations.
- Craft detailed plans for smooth application rehosting and data migration.

Migration & Deployment
- Seamlessly transfer data to Azure with data integrity and security.
- Optimise applications for Azure compatibility and scalability.
- Migrate databases, workloads, and services, managing dependencies.

Training & Enablement
- Create custom training programs tailored to team roles.
- Provide hands-on Azure tools training and best practices.
- Guide in resource management for enhanced efficiency.

Managed Services & Support
- Implement proactive monitoring for prompt issue resolution.
- Experienced service desk for technical support.
- Continuously optimise resources and configurations.

Each business is unique in their requirements and setup. Our Professional Services team works alongside you to define initial requirements, creating a transparent roadmap and cost estimate for the overall migration.

Your Outcomes

Our services are designed to align with your long-term vision, creating a roadmap for ongoing success.

As Microsoft Cloud experts, we become an extension of your team, providing unmatched guidance.

We offer full cost visibility and in-depth analysis to keep your budget on track.

Free up your IT team by entrusting us with cloud environment management.
